

SEVENTH-DAY ADVENTIST PHILOSOPHY OF EDUCATION

The Seventh-day Adventist philosophy of education is Christ-centered. Adventists believe that, under the guidance of the Holy Spirit, God’s character and purposes can be understood as revealed in the Bible, in Jesus Christ, and in nature. The distinctive characteristics of Adventist education—derived from the Bible and the writings of Ellen G. White – point to the redemptive aim of true education: to restore human beings into the image of their Maker.

... Adventist education imparts more than academic knowledge. It fosters a balanced development of the whole person – spiritually, intellectually, physically, and socially. Its time dimensions span eternity. It seeks to develop a faith in God and respect for the dignity of all human beings, to build character akin to that of the Creator; to nurture thinkers rather than mere reflectors of others’ thoughts to promote loving service rather than selfish ambition; to ensure maximum development of each individual’s potential and to embrace all that is true, good, and beautiful.

SPORTS AND ATHLETICS

Cayman Academy continues to make strides in this area. Presently we hold the champion cup for the national Private School football tournament. There is a fully equipped multipurpose volleyball, netball and basketball court. Future plans are in place to upgrade the field for track and field and other sporting events. The school participates in inter-school competitions.

THE TEACHING STAFF

All teachers at Cayman Academy are well qualified and experienced with an average of 16 years teaching experience. They are committed to providing an educational atmosphere where students have the opportunity to fulfill their potential for intellectual, emotional, physical, spiritual and psychological growth. One hundred percent of staff, excluding teacher’s assistants, have a Bachelor’s degree and twenty five percent are in possession of a Master’s degree. Teachers are encouraged to be lifelong learners.
